

GRADE 10- SOCIAL SCIENCE

SECTION 1: HISTORY

Q1. The Congress of Vienna (1815) primarily aimed to:

- A. Establish democratic governments throughout Europe
- B. Restore conservative monarchies and maintain the balance of power
- C. Promote industrialisation in European countries
- D. Unite all European nations under one republic

Q2. Which development most directly contributed to the rise of nationalism in Europe during the nineteenth century?

- A. Expansion of feudal privileges
- B. Growth of liberal ideas and national identity
- C. Decline of printed literature
- D. Strengthening of absolute monarchies

Q3. Consider the following statements about Giuseppe Mazzini:

1. He supported the idea of a united republican Italy.
2. He believed nations should be based only on dynastic rule.
3. He founded Young Italy.

Which statements are correct?

- A. 1 and 2 only
- B. 2 and 3 only
- C. 1 and 3 only
- D. 1, 2 and 3

Q4. The Treaty of Versailles (1919) is historically significant because it:

- A. Ended the First World War and imposed conditions on Germany
- B. Established the European Union
- C. United Italy and Germany
- D. Ended the Second World War

Q5. The Non-Cooperation Movement was withdrawn after the Chauri Chaura incident mainly because:

- A. The British government accepted all Indian demands
- B. The movement became associated with an act of violence
- C. Indian industries stopped production
- D. The Simon Commission was abolished

Q6. Why did the Salt March become an important symbol of resistance during India's national movement?

- A. Salt was exclusively used by industrial workers
- B. It challenged the British monopoly and tax on salt
- C. It demanded the restoration of princely states
- D. It focused on the expansion of railways

Q7. Which of the following best explains the role of print culture in the growth of nationalism?

- A. It restricted information to rulers
- B. It helped circulate ideas, debates and political messages
- C. It eliminated regional languages
- D. It discouraged public discussion

Q8. The invention of the printing press contributed to social change in Europe primarily by:

- A. Making books accessible to a wider audience
- B. Ending all forms of religious conflict
- C. Restricting the publication of scientific works
- D. Eliminating handwritten manuscripts immediately

Q9. Which factor was important in the development of industrialisation in Britain?

- A. Complete dependence on imported machinery
- B. Availability of capital, resources and technological innovations
- C. Decline of transport networks
- D. Ban on factory production

Q10. The term *proto-industrialisation* refers to:

- A. Industrial production that developed before the establishment of modern factories
- B. Production carried out only by government-owned factories
- C. Complete mechanisation of all agricultural work
- D. Industrial activity limited to large cities

Q11. Why did some Indian weavers face difficulties during British colonial rule?

- A. They received complete protection from British imports
- B. Competition from machine-made imports and colonial trade policies affected their livelihoods
- C. Demand for Indian textiles increased without interruption
- D. Indian textile production was entirely mechanised

Q12. Which statement correctly describes the impact of the First World War on India?

- A. It had no impact on India's economy
- B. Increased expenditure, taxes and economic difficulties affected people
- C. It immediately ended colonial rule
- D. It completely stopped all political activity

Q13. Assertion (A): Print culture helped spread reformist ideas.

Reason (R): Printed material could reach larger audiences and encourage discussion.

- A. Both A and R are true, and R correctly explains A
- B. Both A and R are true, but R does not explain A
- C. A is true, but R is false
- D. A is false, but R is true

Q14. Which of the following is an example of cultural nationalism?

- A. Promoting a shared national identity through literature, art and traditions
- B. Imposing a single economic policy on every country
- C. Replacing all regional languages with one language
- D. Abolishing all cultural differences by law

Q15. Which development best illustrates the connection between industrialisation and globalisation?

- A. Expansion of international trade and movement of goods and capital
- B. Complete elimination of international markets
- C. Decline of transportation technology
- D. Restriction of industrial production to villages

SECTION 2: GEOGRAPHY

Q16. Which of the following is the most appropriate distinction between renewable and non-renewable resources?

- A. Renewable resources are always unlimited
- B. Non-renewable resources can generally be replenished within a short period
- C. Renewable resources can regenerate under suitable conditions, while non-renewable resources form over very long periods
- D. All natural resources are non-renewable

Q17. Soil erosion is most likely to increase when:

- A. Vegetation cover is maintained
- B. Contour ploughing is practised
- C. Deforestation and improper land use occur
- D. Afforestation is increased

Q18. Which of the following is a major objective of resource planning in India?

- A. Unrestricted exploitation of resources
- B. Sustainable and balanced utilisation of resources
- C. Elimination of regional differences through mining alone
- D. Replacement of all renewable resources with minerals

Q19. A region experiences rapid deforestation, soil erosion and declining groundwater levels. Which approach would address these problems most effectively?

- A. Increasing resource extraction without restrictions
- B. Integrated watershed management and afforestation
- C. Expanding cultivation on every available slope
- D. Removing natural vegetation near rivers

Q20. Which of the following is a major cause of water scarcity in regions that receive adequate rainfall?

- A. Efficient water management
- B. Over-exploitation, unequal distribution and pollution
- C. Increased groundwater recharge
- D. Improved rainwater harvesting

Q21. Which crop is generally associated with the kharif cropping season in India?

- A. Wheat
- B. Gram

- C. Rice
- D. Mustard

Q22. Why are industries often located near sources of raw materials?

- A. To increase transportation costs
- B. To reduce the cost of transporting bulky raw materials
- C. To eliminate the need for skilled labour
- D. To prevent access to markets

Q23. Which of the following is a non-conventional source of energy?

- A. Coal
- B. Petroleum
- C. Solar energy
- D. Natural gas

Q24. The Golden Quadrilateral primarily connects:

- A. Four major metropolitan cities of India
- B. All state capitals in the Northeast
- C. Only major ports of India
- D. All villages in the country

Q25. A factory is established near a port, has access to imported raw materials and exports finished goods. Which factor is most directly influencing its location?

- A. Market isolation
- B. Transport and trade connectivity
- C. Absence of infrastructure
- D. Dependence only on local labour

SECTION 3: POLITICAL SCIENCE

Q26. Power sharing is considered desirable in a democracy because it:

- A. Eliminates all political disagreements
- B. Reduces the possibility of conflict and promotes stability
- C. Guarantees that one community will always rule
- D. Removes the need for elections

Q27. Which of the following is an example of horizontal power sharing?

- A. Power shared between central and state governments
- B. Power shared among the legislature, executive and judiciary
- C. Power shared between villages and municipalities
- D. Power shared between two political parties only

Q28. In a federal system, constitutional division of powers means that:

- A. Only the central government has law-making authority
- B. Different levels of government have constitutionally defined powers
- C. State governments can be abolished at any time
- D. Local governments have no responsibilities

Q29. Which statement best explains the significance of decentralisation?

- A. It transfers certain powers and responsibilities to lower levels of government
- B. It concentrates all decision-making in the national government
- C. It eliminates local elections
- D. It prevents citizen participation

Q30. Consider the following:

1. Gender division can create unequal opportunities.
2. Caste inequalities can influence social and political life.
3. Democracy automatically eliminates every form of discrimination.

Which statements are correct?

- A. 1 and 2 only
- B. 2 and 3 only
- C. 1 and 3 only
- D. 1, 2 and 3

Q31. Political parties perform which important function in a democracy?

- A. They prevent citizens from participating in elections
- B. They present policies and candidates and help form governments
- C. They replace the Constitution
- D. They eliminate political competition

Q32. Which of the following is a challenge commonly faced by political parties?

- A. Absence of any need for public support
- B. Lack of internal democracy and concentration of power
- C. Complete transparency in every decision
- D. Elimination of political differences

Q33. The presence of opposition parties is important because it:

- A. Prevents the government from functioning under all circumstances
- B. Scrutinises government decisions and offers alternative policies
- C. Removes the need for legislative debate
- D. Guarantees that every policy will be rejected

Q34. Assertion (A): Democracy is expected to improve the quality of decision-making.

Reason (R): Democratic decision-making generally involves discussion, consultation and consideration of different viewpoints.

- A. Both A and R are true, and R correctly explains A
- B. Both A and R are true, but R does not explain A
- C. A is true, but R is false
- D. A is false, but R is true

Q35. Which outcome of democracy is most closely associated with accountability?

- A. Government decisions are beyond public scrutiny
- B. Citizens can question and evaluate the performance of elected representatives
- C. Elections are held without any public participation
- D. Political leaders cannot be replaced

SECTION 4: ECONOMICS

Q36. Which of the following is a limitation of using per capita income as the only measure of development?

- A. It measures every aspect of human well-being
- B. It does not adequately reflect income distribution and other social indicators
- C. It cannot be calculated for any country
- D. It measures only environmental quality

Q37. A country has high average income but poor access to healthcare and education for many people. This illustrates that:

- A. Income alone fully determines development
- B. Development must be assessed using multiple indicators
- C. Education has no connection with development
- D. Average income is always an unreliable calculation

Q38. Which of the following belongs to the primary sector?

- A. Banking
- B. Manufacturing
- C. Agriculture
- D. Transport

Q39. Disguised unemployment is most likely to be observed when:

- A. Every worker contributes substantially to total production
- B. More people are engaged in an activity than are required for the existing level of output
- C. Workers are employed only in factories
- D. All workers receive identical wages

Q40. Money acts as a medium of exchange because it:

- A. Eliminates the need for any economic activity
- B. Makes it easier to exchange goods and services without requiring a double coincidence of wants
- C. Has value only when it is made of gold
- D. Can be used only for international trade

Q41. Which of the following is a formal source of credit in India?

- A. Moneylender
- B. Commercial bank
- C. Trader
- D. Relative

Q42. Why is collateral often required by lenders?

- A. It guarantees that borrowers will never face financial difficulties
- B. It provides security to the lender against the possibility of default
- C. It eliminates interest payments
- D. It ensures that loans are always interest-free

Q43. Globalisation has been facilitated by:

- A. Improved transport, communication and liberalisation of trade and investment
- B. Complete restrictions on foreign investment
- C. Elimination of international markets
- D. Decline in technological development

Q44. Which of the following is a possible effect of increased competition due to globalisation?

- A. Producers may improve quality and reduce costs to remain competitive
- B. All domestic producers automatically earn higher profits
- C. Consumers lose access to all imported products
- D. Technology becomes unavailable to developing countries

Q45. The main purpose of consumer protection measures is to:

- A. Prevent consumers from comparing products
- B. Safeguard consumer interests and promote awareness of rights
- C. Allow sellers to provide false information
- D. Remove the need for product quality standards

SECTION 5: ACHIEVERS SECTION

Q46.

A newly formed European nation adopts a constitution based on equality before law, abolishes several feudal privileges and promotes national symbols. Which combination of developments does this scenario most closely represent?

- A Restoration of feudalism and dynastic legitimacy
- B Liberal nationalism and the transformation of political authority
- C Colonial expansion without national identity
- D Rejection of citizenship and constitutional government

Q47.

A farming region experiences the following changes:

- Forest cover decreases.
- Groundwater extraction increases.
- Crop production initially rises but later declines.

- Soil fertility deteriorates.

Which combination of measures would most effectively promote long-term sustainability?

- A. Increased extraction and expansion of cultivation without restrictions
- B. Afforestation, water conservation and sustainable agricultural practices
- C. Replacement of all food crops with commercial crops
- D. Removal of vegetation to increase the cultivated area

Q48. In a country, the central government controls defence and foreign affairs, while regional governments have constitutionally protected powers over several local matters. The judiciary can resolve disputes between the two levels.

Which principle is most clearly illustrated?

- A Unitary government
- B Federalism with constitutional division of powers
- C Majoritarianism without legal limitations
- D Complete centralisation of authority

Q49. A small producer takes a loan from an informal lender at a high interest rate. After an unexpected fall in income, the producer struggles to repay the loan and must borrow again.

Which conclusion best explains the economic risk in this situation?

- A. Informal credit always improves the financial position of borrowers
- B. High interest and repeated borrowing can contribute to a debt trap
- C. Formal banks do not provide any form of credit
- D. Borrowing is never associated with financial risk

Q50. A multinational company establishes a factory in a developing country. It introduces modern technology, employs local workers and sells products in domestic and international markets. However, some small local producers face increased competition.

Which interpretation is most accurate?

- A. Globalisation produces identical outcomes for every producer
- B. Globalisation can create opportunities while also increasing competitive pressures
- C. Globalisation always eliminates employment opportunities
- D. Foreign investment necessarily benefits every section of society equally
